

CALIFORNIA & SF BALLOT ENDORSEMENTS

Join **SF PEOPLE** in standing with poor and working people of San Francisco by voting with these recommendations.

IA »	Transportation Investment Fund › Mandates that all revenue from the state's gasoline sales tax go to transportation funding only. Too restrictive of important state revenue and prevents funds being used in emergencies for human services more than twice in a ten year period. Not good for CA.	NO
IC »	Housing and Emergency Shelter Trust Fund › \$2.85 billion for affordable housing projects. Current funding will run out by the end of 2006.	YES!
IE »	Disaster Preparedness and Flood Prevention Bond › \$4 billion to maintain and repair our levees and flood control system.	YES
83 »	Right-Wing Wedge Issue › Seeks to socially punish sex offenders & sexually violent predators without concrete solutions. It's estimated this could cost \$500 million – for a program with little evidence of success.	NO!
84 »	Clean Water, Parks, and Coastal Protection › \$5.4 billion bond to address maintenance of natural waterways, and includes funding for improvements to state park facilities.	YES
85 »	Protect Choice and Teen Safety › Part of a broader campaign to chisel away at a woman's right to choose and risks the health and safety of teens.	NO!
86 »	Regressive Tax › Levies a \$2.60 tax per pack of cigarettes but creates loopholes. We need real progressive tax reform based on income.	NO
87 »	Make Big Oil Pay for Cleaner Energy › It would provide \$4 billion in revenue that would be used for alternative energy research, development and incentives.	YES
88 »	Regressive Tax › Levies a flat \$50 tax, per year, on each unit of real estate. Makes homeowners pay the same as million dollar corporations. Downtown has to pay it's fair share.	NO
89 »	Clean Money › Establishes a voluntary public financing system for political campaigns of candidates running for statewide and legislative office.	YES!
90 »	Taxpayer Trap › Will gut rent control and worker protections. Severely limits residential zoning, and limits environmental protections.	NO!

Vote November 7, 2006 ★ Early voting at City Hall Starts October 9th

Or fill out and return the application on the back of the Voter Information pamphlet to receive an Absentee Ballot.

Paid for by San Francisco People's Organization, FPCC # Pending

BALLOT ENDORSEMENTS (continued)

A »	San Francisco Unified School District School Bond » \$450 million bond raises needed money for improvements to schools across the district.	YES!
B »	Absentee Supervisors » Circumvents public accountability and undermines public representation. SF residents deserve to have full time representation and public accountability. Absentee Supervisors = Loss of Accountability. A supervisor could spend over half their elected term absent from office.	NO
C »	Politician Pay-off » Provides politicians with built-in raises not afforded any working class people in SF. In a few years this will give certain politicians salaries over 100,000 dollars. SF can not afford to line the pockets of politicians any more so, while working families can barely afford to live in public housing in SF.	NO
D »	No disclosure of private information	YES
E »	Parking Tax Ordinance » Currently, there is a parking tax of 25%. This would raise the tax to 35%. The revenue goes to fund public transit.	YES!
F »	Paid Sick Leave » Employers will be required to allow employees to accrue sick leave – one hour of sick leave for every thirty hours of work. Help keep workplaces and working families stay healthy.	YES!
G »	Limitations on Formula Retail Stores » Chain stores subject to approval of the Planning Commission in a neighborhood business district.	YES
H »	Relocation Assistance » Currently, renters are entitled to \$1,000 in relocation expenses for a legitimate no-fault eviction. This proposition would increase this to \$4,500 (per person, up to a cap of \$13,500 per household). There is an additional \$3,000 for each tenant aged 60 or older, disabled, or living with at least one minor child.	YES!
I »	Mayoral Appearances Mandated » Policy requiring the Mayor to appear before the Board of Supervisors. Gives supervisors and the public more access to the mayor to increase accountability and open government.	YES
J »	Calling for Impeachment of Bush and Cheney » 'nuff said.	YES!
K »	Housing Needs Of Seniors and Disabled Adults	YES!

WHO IS SFPO?

The San Francisco People's Organization is a new coalition of community based organizations, labor, advocacy groups, and individuals committed to building a progressive vision for San Francisco. We believe that through grassroots, constituency-based, multi-issue and multi-ethnic organizing we can transform San Francisco into a truly progressive city that places human needs and the common good first.
